PacTrac

State Shuttle Package Tracking System

Track your important shuttle items

PacTrac is Publishing & Distribution's new online package tracking system.

PacTrac allows you to track your packages and secure shipments using the State Shuttle Service.

Users can:

- Create a personalized login;
- Enter the destination of delivery;
- Identify Security Level needed;
- Print package labels;
- Track items via the web in real time from pickup to delivery;
- View route schedules for pickup and delivery times.

Easy to use online

You can have any Shuttle package tracked; it's as easy as going to our website, entering the delivery details and printing a bar coded label.

The Barcode is scanned by our hand held readers as it travels through the shuttle system.

Our drivers scan:

- The location of each pick up or delivery;
- Each packages as it moves location.

Hand held scanners can also capture signatures when requested and wirelessly transmit to our secured server.

Cost Saving to Agencies

PacTrac can help save millions of dollars.

Private shipping services have primarily been used in the past because of their tracking ability.

Sign up today

Start enjoying the benefits of PacTrac by contacting Publishing & Distribution today.

Contact Jason Lanzafami (503) 373-1715, Dave Garber (503)373-1327 or email pts.admin@das.state.or.us

Your bar code is scanned every time the package changes hands.
